PROFESSIONAL SUMMARY

Computer Science Engineering undergraduate with hands-on experience in Python, Django, machine learning, React.js, and data analysis. Experienced in developing web applications, automation solutions, and machine-learning projects through internships and academic work. Seeking an entry-level software/IT role where I can apply my technical and problem-solving skills while continuing to learn and grow.

EDUCATION

B.Tech in Computer Science Engineering | GIET University, Gunupur

Expected Graduation: 2028

CERTIFICATIONS & COURSES

- NPTEL – Cloud Computing
- Coursera – Introduction to Artificial Intelligence
- Eduskill – Data Science Virtual Internship

PROFESSIONAL EXPERIENCE

Project Intern | Hindustan Aeronautics Limited

May 2026 – June 2026

- Developed an automated file-transfer system to securely transfer files between devices without requiring an internet connection
- Implemented local/network-based file transfer mechanisms to automate file selection, transmission, and receiving
- Used Python to develop file-transfer functionality with TCP/IP Socket Programming for device communication
- Technologies: Python, TCP/IP Socket Programming, Flask/Tkinter, Local Wi-Fi/LAN

Python Intern | CTTC, Bhubaneswar

May 2025 – June 2025

- Django CRUD Web Application – Developed a Django-based web application implementing complete CRUD (Create, Read, Update, Delete) operations
- Implemented user-friendly web interface for adding, viewing, updating, and deleting records with SQLite database
- Gained practical experience in Django MVT architecture, database management, URL routing, templates, forms, and backend development
- Technologies: Python, Django, HTML, CSS, SQLite, Git/GitHub

PROJECTS

Vendor Performance Analysis

- Created interactive Power BI dashboards to analyze vendor performance, sales, and related business metrics
- Performed data cleaning and transformation to prepare datasets for analysis
- Designed interactive visualizations and KPIs to support data-driven decision making
- Technologies: Power BI, Excel, CSV, Data Analysis

Loan Approval Prediction

- Developed a machine-learning system to predict loan application approvals based on applicant and financial information
- Performed data preprocessing, feature analysis, and model training on loan application datasets
- Implemented and evaluated multiple machine-learning models for accurate approval prediction
- Technologies: Python, Machine Learning, Pandas, NumPy, Scikit-learn, Jupyter Notebook

ACHIEVEMENTS & AWARDS

- Hacknovation – Participant: Participated in Hacknovation as a member of Team NEMESIS, contributing to a healthcare appointment management system.
- Project Internship – Hindustan Aeronautics Limited (HAL): Completed a project internship in the IT domain involving an automated offline file-transfer system.

TECHNICAL SKILLS

Programming Languages: Python, Java, C, C++, SQL

Web Development: HTML, CSS, JavaScript, React.js, Django

Databases: MySQL, SQLite

Data Science & ML: Pandas, NumPy, Scikit-learn, Jupyter Notebook

Tools & Platforms: Git, GitHub, VS Code, Power BI

Core Competencies: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks
